**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I use, and rely on, a fast internet from a very small company. And, for now, I can afford it. I use this provider because they are human beings that support our community. Really support us! In last years fires, they opened their offices for those of us that lost our living space - either temporarily or permanently, to stay in, during non-work hours. The local Y allowed us to shower. That's community!

So how can I use any one else?

Please don't rule us out of the possibility of using community grown companies. Both our broadband and phone services need them to remain competitive.
